It's the "one-dish-dinner"—complete nutrition in perfect balance. The Swift scientist above is making vitamin assays of Pard. This is one of the scientific checks in the making of Pard dog food that helps assure a balanced, nutritionally excellent product . . . uniform day in and day out.

Pard is made to the exacting specifications of Swift's Research Laboratory. This laboratory is noted for its thoroughness, its modern equipment, and its more than half-a-century of food research. All these insure better health for dogs through better food.

Pard has been *proved* capable of sustaining optimum health by test feedings on generation after generation of dogs in Swift's kennels. On a diet of Pard and water, these dogs have shown excellent growth and maintenance. Reproduction normal. Positive proof that Pard contains every known essential for good nutritional health. Be safe! Feed and recommend rich, nourishing Pard—the complete "one-dish-dinner"!
